DETAILED ACTION

Claim Rejections - 35 U.S.C. § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-26 are rejected under 35 USC §102(b) as anticipated or in the alternative under 35 U.S.C. 103(a). This rejection is set forth in the prior Office action paper number 5.

Response to Arguments

2. Applicant's arguments filed on November 26, 2001 have been fully considered but they are not persuasive.

Applicants argue that the applied references is drawn to active system in which a vibration of same intensity but opposite amplitude to the vibration of the system is applied to damped the system. This is unconvincing for the following reasons:

a) The is/are not limitation(s) in the claims that preclude(s) the dampening by opposing amplitude. The claims only recite that the frequency needs to be the same as the natural frequency of the system or a multiple of it. The cited reference includes those limitations and therefore, it reads on the claims.

Art Unit: 1731

b) Also, Arnhold et al. include embodiments in which the vibrations are absorbed by a damper and the system becomes a passive damper, see column 6, line 67 through column 7, line 3.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
